REASONS FOR ALLOWANCE

The following is a statement of reasons for the indication of allowable subject matter:

The examiner agrees with the arguments presented in the paper submitted by applicant on January 21, 2004 regarding the allowability of the claims as amended.

The primary reason for the indication of the allowability of claims 1-15 is the inclusion therein, in combination as currently claimed, of the limitation that the updating of said usage information in an ink jet printer includes verifying said first high priority usage information has been written properly and subsequently storing second high priority usage information in a third memory field, said second high priority usage information being substantially identical to said first high priority usage information. This limitation is found in claims 1-15 and is neither disclosed nor taught by the prior art of record, alone or in combination.

The primary reason for the indication of the allowability of claims 16-21 is the inclusion therein, in combination as currently claimed, of the limitation that the first, second and third fields are included in a non-volatile memory module of an ink-jet printer. This limitation is found in claims 16-21 and is neither disclosed nor taught by the prior art of record, alone or in combination.

The primary reason for the indication of the allowability of claim 22 is the inclusion therein, in combination as currently claimed, of the limitation that the updating of said usage information in an ink jet printer includes verifying said first usage information has been written properly and subsequently storing second usage

information in a second memory field, said second usage information being substantially identical to said first usage information. This limitation is found in claim 22 and is neither disclosed nor taught by the prior art of record, alone or in combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
